

Icelandic Group PLC (IGP)

Icelandic Cod Fisheries

Marine Stewardship Council Certification

Certification Body: Det Norske Veritas

Announcement of Stakeholder Consultation

The Fishery is at present undergoing assessment against the MSC Principles and Criteria for Sustainable Fishing. A key step to evaluate the Performance Indicators and Scoring Guidepost in the MSC Methodology is to collect information regarding the fishery and in particular to speak to representatives of the fishery, fishery management and environmental management bodies.

Should you have any further information on this fishery that you feel should be considered in the assessment, please advise us. The assessment team will meet in Reykjavik, Iceland on the 17th and 18th of January 2011.

Recommendations of new stakeholders are also welcome. If you would like to talk to the assessors, please advise us of your interest by **6th January 2011**, giving the following details:

1. Name and company, together with contact information;
2. Your Association with the fishery;
3. The issues you would like to discuss (in order for us to arrange appropriate representation)
4. Suitable venue and time for a meeting.

Please submit this information to sandhya.chaudhury@dnv.com, and you will be contacted as soon as possible.

Further information regarding the Marine Stewardship Council Methodology is available at the MSC website <http://www.msc.org>

The contact details for DNV are:

Ms. Sandhya Chaudhury,
Lead Auditor & Service Manager,
DNV Business Assurance, Norway
