

Norway Spring Spawning Herring Fishery

Marine Stewardship Council Certification

Certification Body: Det Norske Veritas

Notification of Timing of Surveillance Audit

DNV proposes to co-ordinate meetings with the Norwegian Fisheries Ministry, Norwegian Fisheries Directorate, Research institutes and other stakeholders for a number of MSC certified fisheries. This co-ordination would be beneficial for the clients as far as costs are concerned and avoid frequent meetings / irritation with the relevant stakeholders.

The co-ordination will involve the following fisheries:

Norway Arctic Saithe
Norway North Sea Saithe
Norwegian Spring Spawning Herring Fishery
Norwegian North Sea and Skagerrak Herring Fishery
Norwegian North East Atlantic Mackerel Fishery

The surveillance audit period for the Norwegian Spring Spawning Herring Fisheries is delayed by a period of two months.

The recertification process will revert to the annual timing.

Surveillance audit dates for 2010 will be posted at a later date.
