Subject	: Change in team for the first Surveillance Audit	Email	: msc@sgs.com

Following certification in 2011, we are now continuing the process of surveillance audits for the Netherlands Blue Shell Mussel fishery:

<b>Species:</b>	Dutch Blue Shell Mussel ( <i>Mytilus edulis</i> ) Fishery and Culture.
<b>Location:</b>	Waddenzee and Zeeuwse delta.
<b>Fishing methods:</b>	Dredge and suspended seed mussel collectors, culture. Catch and grow.

After internal review of the team composition, it has been decided to add one person to the team to better fulfil MSC requirements.

Judith van Looij-van der Lelij will be added to the team. Judith has been with SGS since 2009 and is involved in both MSC fishery and Chain of Custody certification and will act as the team leader for this assessment.

Stakeholders are encouraged to contact SGS if they have any comments on the composition of the team that they feel should be considered no later than 31 December 2012:

SGS Nederland BV, Product and Process Certification will act as coordinating office and is accredited to perform MSC Fishery certifications.
