

## **OREGON PINK SHRIMP FISHERY**

**MSC Certification**  
**Certification Body: Moody Marine Ltd**

### **Surveillance Audit**

This notification serves to inform interested stakeholders that Moody Marine is now scheduling the next annual surveillance audit of this fishery. This certification was initially completed by TAVEL Certification, which has recently been acquired by Moody Marine.

Moody Marine requested and was granted a variation to the FCM by the MSC to change the schedule of annual surveillance audits from the fall of each year to the spring in order to align the audits with the conclusion of the annual fishery review process conducted by the management authority. All subsequent annual audits shall be conducted in the spring of each year.

This audit has two principal functions:

1. To review any changes in the management of the fishery, including regulations, key management or scientific staff, or stock evaluation
2. To evaluate the progress of the fishery against any Conditions of Certification raised during the Main Assessment

During the audit, or at separate meetings, we shall be speaking with representatives of the fishery and fishery management organisations. We expect to carry out meetings on **April 1, 2 2010** in **Newport**, Oregon, location to be finalized.

Should you have any information on this fishery that you feel should be considered in the assessment, please advise Steve Devitt at the contacts below. We may be available to meet with stakeholders as appropriate. If you would like to arrange a meeting, please advise us of:

- your name and contact details;
- your association with the fishery;
- the issues you would like to discuss (in order for us to arrange appropriate representation).;
- when you would like to meet.
