

Ref. 3143N12A

11th October 2019

Notification of additional team member

SFSAG Rockall haddock

Control Union Pesca Ltd. (CU Pesca) would like to inform stakeholders that Dr Mathias Deleau will be joining the SFSAG Rockall Haddock MSC assessment team for the Year 1 surveillance audit and will be attending the site visit in Aberdeen on 7th November 2019. Mathias will take responsibility of traceability for this assessment.

Mathias obtained his PhD from the University of Southampton looking at the “impacts of anthropogenic sounds on fish behavior” following an MSc in Marine Ecology and Environmental Management (Queen Mary University of London) and an MSc in Applied Ethology and Animal Behaviour (Linköping Universitet – Sweden). A French citizen, he also spent 3 years at the University of Toulouse where he obtained the French equivalent of a BSc in “Biologie des Organismes, Populations and Ecosystemes” (Université Paul Sabatier – Toulouse). Mathias has a broad knowledge of both freshwater and marine ecosystems and he has been involved in several projects dealing with the conservation and management of various species in addition to fish. For example, he worked on: the Parc Marin International des Bouches de Bonifacio (Corsica - FR) as a field researcher; the Centro Ricerca Delfini (Caprera - IT) on monitoring bottlenose dolphin populations, and finally as a field researcher for Birdlife Malta on storm petrels and shearwaters populations management.

Mathias currently works as a Fisheries Officer for CU Pesca. He has completed his MSC online training for CoC (2019 version) and Fisheries (v2.0 and v2.1) including Traceability v2.0 and v2.1 module

Dr Robin Cook, Dr Hugh Jones and Dr Sophie des Clers will continue to be responsible for Principle 1, 2 and 3 respectively and Dr Hugh Jones and Dr Sophie des Clers will be attending the site visit.
