

**US Atlantic Sea Scallop Fishery
MSC Certification
Certification Body: Intertek Moody Marine**

Notification of Proposed Peer Reviewers

A Peer Review panel has been proposed for this fishery. Potential peer reviewers have been approached on the basis of their experience of one or more of the following; the fishery under assessment, fishery management, stock assessment issues and relevant ecosystem interactions.

Brief details of each reviewer are provided below. All stakeholders (including the applicant fishery) are now given the opportunity to state any objections to the selection of a proposed member of the peer review panel, on the basis of any conflicts of interest, accompanied by a statement on the basis of any objection.

If you wish to provide comment at any stage of the assessment process the MSC have provided a template for stakeholders to complete and submit their comments. This can be downloaded from the following link:
<http://www.msc.org/documents/scheme-documents/forms-and-templates/msc-template-for-stakeholder-input-into-fishery-assessments/view>

Comments on the suitability of any of the persons listed below should be forwarded, **before April 6, 2012**, to Don Aldous at Intertek Moody Marine as follows:

Don Aldous, Lead Assessor
E-mail: don.aldous@intertek.com

Proposed Peer Reviewers:

1. John F. Caddy
2. Sandra Shumway

John F. Caddy BSc Hons, Marine Biology, Queen Mary College, University of London, U.K 1962; PhD, QMC, University of London, England, 1966.

Dr John Caddy is an international fisheries expert recently associated with the UN Food and Agriculture Organization. Has a long experience of marine resource and environmental research management issues nationally in his appointment with Fisheries and Oceans Canada, and globally during 20 years of work with the FAO, (including his former post as Chief of Marine Resources in the Fisheries Department). This included more than 10 years as the expert in FAO Rome on Caribbean fishery issues. He has an extensive applied experience in fisheries biology, population dynamics and fish stock assessment is reported in some **80+** primary publications and books on fishery-related issues, which are available on request. During his period at the FAO, he was involved in national policy issues, designed fishery research programs, and drafted government fishery management plans and cooperative projects. A broad experience with marine issues has led to demands for his services in evaluating the performance of fishery institutions, such as the work of the International Center for Living Aquatic Resources Management (ICLARM), the USAID stock assessment program (CRISP), the UBC Fishery Center, Vancouver, and the UK Marine Mammal program of Dunstaffnage Laboratory, Scotland.

Sandra (Sandy) Shumway; BS (Long Island); PhD (Wales) DSc (Wales)

Sandra (Sandy) Shumway received her B.S. from Long Island University in 1974, studied as a Marshall Scholar at the University of Wales, where she received her Ph.D. in 1976 and was later awarded a D.Sc. in 1992. She has worked in the field of shellfish biology for 35 years, and published over 150 papers, including co-authorship of the NOAA Essential Fish Habitat Source Document: Sea Scallop, *Placopecten magellanicus*, Life History and Habitat Characteristics. She has edited several books, including *Scallops: Biology, Ecology and Aquaculture* (2nd Edition, 2006), and currently serves as Editor-in-Chief of the *Journal of Shellfish Research* (25 years), *Journal of Experimental Marine Biology and Ecology* (11 years), *Harmful Algae* (8 years) and most recently, *Reviews in Fisheries Science*. She served twice as President of the National Shellfisheries Association and has been honored with their two highest awards, Honored Life Member and Wallace Award for contributions to the shellfish industry. While she continues her work on feeding physiology and the impacts of harmful algal blooms on bivalve molluscs and shellfish aquaculture, she regularly collaborates with and advises industry members globally, has been a member of the steering committee for the WWF Molluscan Dialogue, and writes for the popular literature. She has edited and co-authored a book, *Shellfish Aquaculture and the Environment*, published by Wiley-Blackwell in 2010.
