VA-Delta Kamchatka salmon and Ozernaya sockeye

**Vityaz-Avto Co Ltd
Delta Co Ltd**

Issuance of Public Certification Report

Marine Stewardship Council Certification

Certification Body: MRAG Americas, Inc.

29 August 2017

MRAG Americas announces that the scope extension of the VA-Delta Kamchatka salmon fishery to include Ozernaya sockeye did not receive an objection following posting of the Final Report and Determination. The MRAG Americas Certification Committee has determined that the Ozernaya sockeye fishery may be certified as sustainable against the MSC standard. Ozernaya sockeye fishery is now certified until 12 September 2021, as part of the current VA-Delta Kamchatka salmon certification, subject to successful completion of annual surveillance audits. MRAG has produced a public certification report, available on the MSC website at <https://fisheries.msc.org/en/fisheries/va-delta-kamchatka-salmon-fisheries/@@view>. The certification covers set nets and beach seines for Ozernaya sockeye in the Ozernaya River. Vessels and companies authorized to use the MSC logo for sales of Ozernaya sockeye into the MSC supply chain are listed in the public certification report.

MRAG acknowledges with thanks the participation of all stakeholders during this assessment.
