The point(s) at which fish and fish products may enter a chain of custody:

The eligible points of landing are Hvalpsund and Sundsøre in Denmark.

The point of change of ownership for product from the fishery from which Chain of Custody certification is required is the point of sale of product from the client (Muslengeriet). Any other merchants or processors wishing to sell MSC certified fish that has been purchased from the fishery client will therefore require their own Chain of Custody certification.

The parties, or categories of parties, that are entitled to use this certificate to enter fish from the certified fishery into certified chains of custody:

The only parties eligible to use the fishery certificate are vessels and farms operated by Muslengeriet.
