1 Introduction

Fisheries and at-sea Certificate Holders (CH) in the Marine Stewardship Council (MSC) program are required to provide a self-description of policies and measures, including regulatory requirements and procedures that are in effect in the Unit of Assessment, to protect fishing crew from forced labour or child labour, as well as any efforts by the private sector. The objective is to require certificate holders to communicate how government, industry, or other relevant entities protect against forced or child labour.

Each fishery and at-sea Chain of Custody client shall provide this information by completing this template. This template should be completed by the client in good faith and be based on information known and available to the client at the time of completion. The information provided should be representative of the range of measures known to the certificate holder.

The completed form will be uploaded to MSC database to be published on the MSC website at the same time as the Public Certification Report.

Guidance for filling in the template is found in the [Appendix](#) of this template. Information is required on all issues addressed in the template and should be provided in English, which is the official language of the MSC.

Please complete all unshaded fields. Please fill in N/A if an issue is not applicable, including a short justification for why it is not applicable.

2 Marine Stewardship Council certificate holder forced and child labour policies, practices and measures

Table 2.1 – Certificate holder information

1	Composition of fishery client group on behalf of who the statement is provided
	<ul style="list-style-type: none"> - Characterise the composition of the fishery client group, including cost sharing entities. - Describe the relationship between cost sharing members of the fishery client group and the vessel owners and operators of the Unit of Certification (UoC).
CH	KFO is a Producer Organisation which represents the interests of its member vessel owners/employers. In this instance the RSW (Refrigerated Sea Water) fleet. Costs are shared pro rata among the operators in the UoC.
2	Responsibility for labour regulation
	<ul style="list-style-type: none"> - What management authorities and laws, including flag state authorities, control labour-related regulations in the unit of assessment area? - How are laws enforced?
CH	<p>(i) Labour is regulated by the Irish national authorities through a number of Government Departments: The Department of Business, Enterprise and Innovation should an employment permit be required (not applicable for this UoC – see Point 4), the Department of Transport, Tourism and Sport (DTTAS) which defines working conditions, including age, and safety rules, etc.</p> <p>(ii) The Workplace Relations Commission oversees legal aspects/appeals/investigations of breaches of regulation. There is a robust inspection system in place, including at-sea vessel inspections, and a log book of crew agreement and qualification details/safety certificates which must be submitted bi-annually to the DTTAS.</p>
3	Risk identification and mitigation
	<ul style="list-style-type: none"> - Describe the processes, including government and certificate holder measures, that are in place in the UoC to identify and mitigate any risk of child and forced labour.
CH	See Point 2
4	Crew recruitment
	<ul style="list-style-type: none"> - Describe the typical methods used to recruit crew in the UoC and describe the migrant composition of crew if any.
CH	This UoC provides highly sought-after employment and recruits locally in Ireland. There is no migrant labour recruited for this fishery.
5	Engagement with fish worker groups
	<ul style="list-style-type: none"> - Where there is known engagement with fisher, migrant, and worker rights groups, describe how this occurs and the organisations engaged with workers in the Unit of Assessment (UoA).

CH	This is not applicable to KFO fisheries.
6	Crew contracts
	<ul style="list-style-type: none"> - Describe the nature of contracts or legal work agreements in place in the UoC and the issues addressed in such agreements.
CH	The Irish government is in the process of ratifying ILO 188 and EU Directive 2017/159. There has been a public consultation and it is expected to be completed before the end of 2019. All crew members already have employment agreements in place under national legislation.
7	Audits and labour inspections
	<ul style="list-style-type: none"> - Describe any 3rd Party audits and certifications on labour, or labour inspections conducted within the UoC in the last two years.
CH	All vessels in this UoC are 3 rd party audited (SAI Global) and certified for the Bord Iascaigh Mhara (BIM) Responsibly Sourced Seafood (RSS) which includes audit of crew details. Current audit recently completed.
8	National minimum age requirements
	<ul style="list-style-type: none"> - Describe national minimum age requirements for crew members serving on vessels within the UoC. - Describe systems in place, both regulatory and private sector systems, to ensure that crew members meet national minimum age requirements. - Describe how this is checked, including enforcement within the UoC by the responsible governing authority or oversight body such as labour inspectors.
CH	National minimum age in Ireland is 16 years which is under consideration per ratification of ILO 188 and EU Directive 2017/159, i.e. may be raised to 18 years. Current age limit enforced as described 2.(ii) This UoC does not employ crew less than 18 years as they will not have completed training until at least 18 years old.
9	Repatriation
	<ul style="list-style-type: none"> - Describe how repatriation issues are dealt with in the UoC with respect visits end of contract, voluntary and involuntary termination, and freedom of movement and the extent to which these are included in contracts.
CH	Crew are Irish and local – no repatriation or associated issues for KFO
10	Debt bondage
	<ul style="list-style-type: none"> - Describe if there is evidence of systemic practices to impose costs on crew members for placement or brokerage fees, travel to the workplace, visa, medical, safety gear, clothing/protective gear, food at the workplace, communications access, remittance fees, repatriation, etc. - If so, describe such practices and how debt bondage is avoided.
CH	No evidence
11	Grievance and remedy mechanisms
	<ul style="list-style-type: none"> - Please list any policies or measures (e.g. hotline) that are in place for crew voices to be heard and to report and remediate any instances of forced or child labour.

CH	Not applicable to KFO vessels. All crew are local, non-forced and do not include children
12	Identification documents
	- Describe policies and practice in place across the UoC to ensure that crew members have free and timely access to their identification documents, including National ID, passports, visas, etc.
CH	Crew documents are not retained by vessel owner.
13	Additional comments
	- Do you have additional comments on labour practices within the UoC?
CH	No
14	Date this template was last updated
	- DD/MM/YYYY
CH	15/07/2019

3 Appendix – Guidance on filling in the Certificate Holder Forced and Child Labour Policies, Practices and Measures Template

3.1 Composition of the fishery client group on behalf of who the statement is provided

If a fishery is in full assessment and the cost-sharing participants and arrangements are not yet determined, provide as much detail as possible regarding the expected cost-sharing entities that will comprise the client group, should the fishery achieve certification, and the relationship between such client group representatives and the vessel owners and operators in the Unit of Certification (UoC).

3.2 Responsibility for labour regulation

Provide information on laws and regulation and the authorities that have responsibility for labour regulations in the area in which the fishery operates, including flag state authorities where this is applicable. Describe how these are enforced.

3.3 Risk identification, mitigation and remediation

The information required in this section includes information known by the certificate holder on processes and practices that are applicable in the UoC to identify, assess, prevent and mitigate forced and child labour risks. The information may include government policy or measures, or where applicable, measures being implemented by the certificate holder.

3.4 Crew recruitment

The information required here includes information on the methods used to recruit crew in the UoC, any widespread use of migrant labour, the countries that crew come from and information on recruitment agencies used where this information is available and known to the certificate holder. It may also include information known of visa programs used to bring in workers to the UoC and on payment of recruitment fees.

3.5 Engagement with fish worker groups

In some countries, there may be engagement with fish worker groups or other types of organisations that work to address risks of forced labour. Where this occurs provide information on such engagement. This may include information on any organizations in the port area which support crew members socially, e.g. seafarers' ministry, fishers' association, local committees.

3.6 Crew contracts

Contracts are legal work agreements with labour duties and payments clearly spelled out. Describe the nature of crew contracts in the UoC, specifically features related to forced and child labour, whether the contracts are written in languages understood by crew and how provisions in the contract are enforced.

3.7 Audits and labour inspections

Describe any government labour inspections or social audits and certifications of working conditions within the UoC in the past 2 years. Where the information is available provide a link to the criteria against which the audit took place.

3.8 National minimum age requirements

For this section describe national minimum age requirements and provide a description of regulatory and private sector systems in place to confirm that minimum age restrictions are met. Include information on any exceptions to statutory minimum age requirements which are used by the UoC and information on policy for hiring young workers in compliance with national legislation. This should also include description of any policy or practices for monitoring including hours of work and rest for young workers. This may include information on any other programs which are monitoring labour in your UoC fishing area.

3.9 Repatriation

This section requires a description of how departure of crew members across the UoC is handled. This may include information about government, and/or where known, any applicable company policy on end of crew members' contracts; involuntary termination; leave (including family visits and medical treatment); freedom of movement during the work term and departure terms within crew member contracts.

3.10 Debt bondage

Deductions for costs of work from pay can cause debt bondage and put crew at risk of forced labour. Examples of such work costs include costs of getting to work, placement/broker fee, medical costs, safety gear, food at the workplace, remittance fees and repatriation costs.

Describe systems in place to avoid debt bondage. If there is evidence of systemic practices to impose costs on workers, what measures are in place to avoid debt bondage.

3.11 Grievance and remedy mechanisms

Provide a description of systems known to be in place that allow crew to share information, access assistance and report labour violations and how the systems work to address such reports and provide remediation.

3.12 Identification documents

Describe provisions across the UoC for crew to access their official identification (passports, visas, seafarers book). Where the law in a jurisdiction requires the vessel owner or captain to hold the crew members' official identification, describe the protocol, including government regulations in place to ensure that crew members can access their personal documents and have freedom of movement.
