31 May 2018

MRAG Americas announces that the Narody Severa Bolsheretsk salmon fisheries did not receive an objection following posting of the Final Report and Determination. MRAG Americas has decided that the Narody Severa Bolsheretsk salmon fisheries may be certified as sustainable against the MSC standard. The Narody Severa Bolsheretsk salmon fisheries are now certified for 5 years, subject to successful completion of annual surveillance audits. MRAG Americas has produced a Public Certification Report, available on the MSC website at <https://fisheries.msc.org/en/fisheries/narody-severa-bolsheretsk-salmon/@@view>

The certification covers coastal trap nets, beach seines and gillnets for Pink (*Oncorhynchus gorbuscha*) and Chum (*O. keta*) salmon in the Sea of Okhotsk and Western Kamchatka (Bolshaya, Kikhchik, Mukhina, Khomutina, and Opala Rivers). Vessels and companies authorized to use the MSC logo for sales of Pink (*Oncorhynchus gorbuscha*) and Chum (*O. keta*) salmon into the MSC supply chain are listed in the Public Certification Report and on the certificate.

MRAG Americas acknowledges with thanks the participation of all stakeholders during this assessment.
