

Marine Stewardship Council Surveillance Announcement

Name of Fishery	Netherlands blue shell mussel fishery (Certified on 26th July 2011 / MEP-F-021)	
Surveillance level and type	Surveillance level 4, On-site surveillance	
Surveillance number (tick one)	1st Surveillance	
	2nd Surveillance	
	3rd Surveillance	
	4th Surveillance	X
	Other (expedited etc)	
Proposed Team Leader	<p>Kat Collinson</p> <p>Kat Collinson has a Master's degree from King's College University in Aquatic Resource Management. She has worked on a number of MSC pre- and full assessments including North Menai Strait mussel fishery, Vietnam Ben Tre clam hand gathered fishery and Walkers Seafood Pty Ltd Australian albacore and yellowfin tuna and swordfish longline fishery. Kat also been involved fishery improvements projects (FIPs) and has recently been involved in a project studying the habitat use and niche partitioning in two species of juvenile shark using active and passive tracking and diet stable isotope analysis.</p> <p>Up until recently Kat has also been the Manager of MSC Chain of Custody (CoC) projects at MEC and has undertaken over 150 assessments and therefore will also act as the team's expert on the traceability for the fishery.</p>	
Proposed team members	<p>Ulf Löwenberg</p> <p>Ulf Löwenberg has a Master's degree from the University of Hamburg in Fisheries Science. He is a fisheries biologist with more than 30 years' experience in the fisheries sector. This has included more than 15 years' experience in fisheries and advisory projects, including extensive work in Africa and 8 years' project management. Ulf has been involved in a number of MSC pre-assessments, full assessments and surveillance audits based in Europe. These include Swedish Skagerrak and Kattegat herring fishery, North Sea Saithe Trawl fishery and Western Baltic Spring Spawning Herring fishery.</p> <p>Ulf is now a freelance fisheries consultant and has worked for private and governmental clients on a number of projects in Europe and Africa. A recent project based in Mauritania, which Ulf was responsible for, was titled 'Management advice in the fisheries sector'. This included support to the Fisheries Ministry in relation to development and implementation of fisheries management plans.</p> <p>Chrissie Sieben</p> <p>Chrissie Sieben has a Master's Degree in Marine Environmental Protection which she obtained at the University of Wales, Bangor. She is the MSC fisheries coordinator at MEP and specialises in marine and fisheries ecology, marine environmental impact assessment and sustainable fisheries. She is a fully qualified MSC Team Member with particular expertise in Principle 2 and is involved in MSC full assessments, pre-assessments and fishery surveillance audits. Chrissie participates regularly in MSC CAB training sessions and workshops and has received in-depth Risk-Based Framework training. Within</p>	

	<p>MEP she also works as a Chain of Custody auditor. Chrissie has longstanding experience of this fishery having been involved with previous surveillance audits.</p> <p>All team members are fluent in English and Chrissie is fluent in Dutch.</p> <p>Full CVs for each team member have been submitted to the MSC separately.</p>
<p>Audit/review time and location</p>	<p>The site visit is scheduled to take place in Yerseke, Netherlands on the 12-15th October 2015. MEC welcomes anyone who would like to participate. It is proposed that Ulf Löwenberg, Kat Collinson and Chrissie Sieben attend the site visit.</p>
<p>Assessment/ review activities</p>	<p>During the audit, MEC will communicate with the client and any relevant stakeholders and use any available up to date information to assess and review:</p> <ul style="list-style-type: none"> • Any changes to the fishery and its management including those to management systems, regulation and relevant personnel. • Any changes to the scientific base of information such as stock assessments. • Performance in relation to any relevant conditions of certification to deem conformity with, progress and performance against a condition. • Any developments or changes within the fishery impact may impact on traceability and the ability to segregate MSC from non-MSC products • Any other significant changes in the fishery

ME-Certification Ltd. (MEC) hereby announces the commencement of the 4th year surveillance for the above fishery.

The site visit is scheduled to take place in Yerseke, Netherlands on the 12-15th October 2015.

The surveillance audit will examine whether Netherlands blue shell mussel fishery is satisfactorily addressing any certification conditions and whether any significant changes have occurred either in the physical environment or in the management of the fishery.

All interested stakeholders should contact Gavin Fitzgerald (gavin.fitzgerald@me-cert.com) or Kat Collinson (kat.collinson@macallister-elliott.com) at MEC by email, telephone or post at the below number and address:

ME Certification
56 High Street
Lymington
