	and 2003 he was in charge of the Fisheries Group in the ICES Secretariat as Fisheries Adviser who serves as secretary to the ICES Advisory Committee on Fishery Management. After 2004 he was head of the ICES Advisory Programme within the ICES Secretariat. He retired from the ICES secretariat in 2010 and has since worked as a private consultant on projects within his expertise. He has been a member and Chairman of numerous ICES committees and groups, has within the Northwest Atlantic Fisheries Organization chaired STACFIS and the Scientific Council, been a member of STECF (EC), scientific adviser to Danish delegations to fisheries negotiations and chaired an internal EC expert group to provide input to the EC Multi-annual Guidance Program, within the Nordic Council of Ministers he chaired its Working Group on Fisheries and worked with the FAO/DANIDA project (1982-1998) on teaching fish stock assessment. In 2006 he was awarded the prestigious Swedish prize "Kungsfenan" for contributions to communication between science and the fishing industry. At his retirement from ICES he was awarded a Special Service Award. He is author and co-author of more than 30 peer reviewed papers in prime scientific journals and numerous papers for scientific symposia. He has been a member of MSC certification assessment and surveillance teams for fisheries in the Northeast Atlantic including on Westgreenland shrimp, Greenland halibut and lumpfish, for Barents Sea stocks, for fisheries around Faroe Islands, in the North Sea and in the Baltic Sea. He has reviewed MSC assessment reports including cod, haddock, shrimps, anchovy, sardine and vendace. He has completed MSC training as fishery team leader (v1.3 and v2.0) including the risk based framework and traceability modules. Hans will be the principle expert and team leader of this surveillance audit, and operating on-site
Audit/review time and	He has no conflict of interest in relation to the fishery under assessment. The surveillance will take place by Skype conference on 21st August 2018
Assessment/ review activities	The key purpose of the surveillance audit is: • to review and evaluate the progress of the fishery against Conditions
	 of Certification raised during the full assessment; review any potential or actual changes in the management systems; review changes or additions / deletions to regulations; review any personnel changes in scientific staff, key management or industry to evaluate impact on the management of the fishery; review any potential changes to the scientific basis of information, including stock assessments. Review any changes affecting traceability.

Any parties (individuals or organizations) interested in providing input to the annual surveillance process, please contact DNV GL by **5 PM GMT** on **15th August 2018** and provide:

- a) Your name and contact details
- b) Your association with the fishery
