

MSC Fisheries Certification Assessment
Chile Squat Lobsters and Nylon Shrimp Modified Trawl Fishery
Certification Body: Intertek Fisheries Certification
Change of Assessment Team Member
Nomination

IFC announces a change in the team, with the nomination of Julian Addison (CV below) to replace the P1 expert Patricio Arana.

The two previously nominated team members – Ian Scott (Lead Auditor / P3) and Sara Adlerstein (P2) - remain on the team.

Stakeholders are invited to provide any comments on the suitability or otherwise of any of the nominees. Comments should be sent to: ian.scott@intertek.com, or to the address below by 9th September 2014.

IFC notifies identified stakeholders directly through email. If you know of anyone who may be interested in this notification please forward to them and notify us so we may add them to our list of stakeholders. It should be noted that because email is not a fool proof way of transmitting notifications, we ask that stakeholders sign-up to the free notification service provided by the MSC at <http://www.msc.org/newsroom/updates>.

Should you wish to obtain further information on the MSC, this is available on their web site at <http://www.msc.org>.

As a certification body, IFC has dispute resolution procedures available should these prove necessary.

Ian Scott

Julian Addison: CV

Relevant Educational History:

Institution	Date(s)	Degree(s) or Diploma(s) obtained
Imperial College of Science and Technology, University of London	1978 - 1982	Ph.D. in population ecology and modelling
Kings College, University of London	1975 - 1978	BSc Zoology

Employment History:

Date(s)	Employer	Role
2011 - 2012	Self-employed	Independent Fisheries Consultant
2000 - 2010	Cefas, Lowestoft	Senior Shellfish Advisor to UK Government policy advisors
2007 - 2010	Cefas	Head of Coastal and Freshwater Fisheries Group
2005 - present	University of East Anglia	Honorary Reader in the School of Environmental Sciences
1995 - 1998	Cefas	Scientific Advisor to UK Government policy advisors on International Whaling Commission issues
1993 - 2005	University of East Anglia	Honorary Lecturer in the School of Biological Sciences
1992	(Cefas)	Visiting scientist at National Marine Fisheries Service, Woods Hole, Massachusetts, USA
1991	(Cefas)	Visiting scientist at Department of Fisheries and Oceans, Halifax, Nova Scotia, Canada
1985 - 2000	Cefas	Shellfish research and stock assessment scientist
1982 - 1985	Cefas	Shellfish stock assessment biologist
1982	MAFF	Scientific assistant on bird population biology

Current Employment

Independent fisheries consultant specialising in shellfish and inshore fisheries.

At the end of 2010, after 28 years at the Centre for Environment, Fisheries and Aquaculture Science (Cefas), which is the UK Government's marine science agency for environment, fisheries and aquatic science, I left the organisation to move to France with my family and to work as a consultant. Relevant skills and experience include 30 years' experience of stock assessment and provision of management advice on shellfish and inshore fisheries, extensive shellfish research primarily in the field of crustacean population dynamics and assessment, extensive knowledge of the UK shellfish and inshore fisheries industry and liaison with fishers and other stakeholder groups, knowledge of shellfisheries management regimes worldwide, effective oral and written communication skills and winning of contracts under competitive tender.

Recent and current contracts as a consultant include:

- A review of the stock assessment model for blue crabs in Chesapeake Bay, USA as part of the Center for Independent Experts (CIE) peer review panel.
- Marine Stewardship Council (MSC) full assessments of Ireland and Northern Ireland bottom grown mussel fisheries, Newfoundland and Labrador snow crab fishery, Estonia Barents Sea cold water prawn fishery, Faroe Islands Barents Sea cold water prawn fishery, Nephrops fishery in the Skagerrak and Kattegat, Swedish shrimp

fisheries in the Skagerrak and Norwegian Deep and Eastern Canada offshore lobster fishery and MSC pre-assessments for various fisheries.

- Peer reviews of MSC assessments of Eastern Canada offshore lobster, Maine lobster, Norway North East Arctic cold water prawn, Dutch North Sea razorfish, Waddenzee and Oosterschelde hand rake cockle, Bay of Fundy scallop, Scotian Shelf Northern Shrimp and Gulf of St. Lawrence Northern Shrimp fisheries, and MSC annual surveillance audits and technical reviews for various fisheries in Europe and North America.
- Assessment of three Alaskan crab fisheries under the FAO-based Responsible Fisheries Management scheme.
- Advisor to a wind farm company on shellfisheries monitoring programmes to assess any potential effect of wind farm development on shellfish stocks.

Research interests include development of methods for shellfish stock assessment, including fishery-independent methods of estimating abundance, crustacean behaviour in relation to capture in fishing gear, development of environmentally friendly fishing gear technology for both trawl and molluscan dredge fisheries and the environmental footprint of inshore fisheries.

Previous Roles and Responsibilities:

As Senior Shellfish Advisor to the UK Government's Department for Environment, Food and Rural Affairs (Defra) my responsibilities included:

- Management of a Government contract worth £650,000 per annum
- Provision of advice on the status, sustainable management and development of wild shellfish stocks to Government policy customers and Government Ministers
- Oversight of the monitoring, stock assessment and associated biological studies on wild shellfish stocks in England and Wales
- Assessing the potential impacts of other seabed uses, such as aggregate dredging and wind farm development, on shellfish stocks, and collaboration with the Cefas Weymouth laboratory on shellfish cultivation and aquaculture and disease issues
- Liaison with marine managers and legislators, fishers and industry bodies, other fisheries scientists and research institutions, the Government's Statutory Nature Conservation Agencies, environmental NGOs and the media
- Representing Cefas and UK Government at national and international meetings
- Project management of specific Research and Development (R&D) contracts worth approximately £600,000 per annum.

In addition, whilst Head of the Coastal and Freshwater Fisheries Group at Cefas I held responsibility for 45 staff working on shellfish and recreational fisheries, salmon and freshwater fisheries, and environmentally friendly fishing gear technology with an income for 2009/10 of £4.7 million generated from a wide range of customers.

Other previous responsibilities and experience included:

- Chair of the Working Group on the Biology and Life History of Crabs (WGCRAB) of the International Council for the Exploration of the Sea (ICES)
- Member of the ICES Working Group on Crangon Fisheries and Life History (WGCRAN)
- Member of the ICES Steering Group on Ecosystems Function and previously UK delegate to the Living Resources Committee
- Member of the Crustacea Committee of the Shellfish Association of Great Britain, the association which represents the UK shellfish industry
- Honorary Reader in the School of Environmental Sciences at the University of East Anglia
- Appointed Buckland Professor 2004 giving a series of lectures on 'Science and the Management of UK Crab Fisheries' and currently writing a book on crab fisheries in conjunction with the Buckland Professorship

- From 1995-98, member of International Whaling Commission (IWC) Scientific Committee and UK Delegation to IWC providing scientific advice to UK Commissioner to IWC, and liaising with a large range of environmental NGOs in relation to whaling science and the UK's whaling policy
- Peer review of MSC assessments in North American fisheries
- Reviewer of manuscripts for a range of scientific journals and guest editor for editions of e.g. 'Fisheries Research' and 'Crustaceana'
- Reviewer of research proposals for UK Government Departments and other organisations, e.g. Natural Environment Research Council
- Supervision of MSc and PhD students from University of East Anglia, Southampton University, Swansea University, National Oceanography Centre
- Extensive teaching experience including:
 - 13 years organising and teaching a course on Fisheries Biology in The School of Biological Sciences at University of East Anglia
 - 15 years teaching mathematics to Open University technology students
 - 4 years teaching population ecology and quantitative biology to undergraduates at Imperial College, London.

Previous projects include:

Date(s)	Customer	Project
2000 - 2010	UK Government	Shellfish monitoring, assessment & management advice
2007 - 2012	UK Government	Improved understanding and management of shellfish fisheries
2008 - 2010	UK Government	Environmentally Responsible Fishing – a pilot research project to quantify the environmental footprint of inshore fisheries
2008	UK Government	Baseline surveys of scallops in Fal & Helford SAC
2008 - 2009	UK Government	Baseline habitat mapping in the London Array proposed wind farm site
2007	Black and Veatch Ltd.	The effect of Ely Ouse flows on shellfish and fish in The Wash
2007	Scottish Natural Heritage	Scallop dredging in the Firth of Lorn SAC: a review of scallop fishing activity
2007	North Western & North Wales SFC	Status of lobster stocks in North Wales – an analysis based on CPUE data collected during 2002-05
2006	Natural England	Impacts of cockle suction dredging in The Wash and north Norfolk EMS – Part II Analysis of existing data
2005	Natural England	Assessment of the impacts of cockle suction dredging in The Wash and north Norfolk European Marine Site
2005	European Commission (FIFG)	Development of a suitable razorfish dredge in The Wash
2006	UK Government	Investigation of potential fisheries for razorfish and other bivalves in the eastern Irish Sea
2003 - 2005	UK Government	Fishing gears with mitigating ecological impacts
2002 - 2004	UK Government	Edible crab spawning grounds in the English Channel
2000 - 2003	European Commission	European decapod fisheries assessment and management (EDFAM)
2000 - 2002	European Commission	Collection and evaluation of crab assessment data
1999 - 2003	UK Government	Development of shellfish modelling, assessment and management methods
1999 - 2001	UK Government	Edible crab spawning grounds off the east coast of England
1997 - 2001	Environment Agency	Impact of beach replenishment on shrimp populations
