| <i>Eligibility Dates</i> | |
|--|-------------------------|
| <i>Units of Certification</i> | <i>Eligibility Date</i> |
| 1-6: Golden redfish – All units of certification | 1 September 2013 |
| 7-12: Blue ling – All units of certification | 9 May 2017 |
| 13-18: Tusk – All units of certification | 9 May 2017 |

Chain of Custody

Golden redfish, blue ling and tusk caught by eligible Icelandic fishing vessels licenced to operate within the Icelandic Exclusive Economic Zone, landed whole and/or semi-processed at any officially approved landing site (harbour) and/or sold via (first sale) fish auction and/or kept in cold store facilities in Iceland or in a Third Country prior to first sale or post-landing processing, may enter into further certified chain of custody and be eligible to carry the MSC eco-label, provided these are sold through a member of the client group, i.e. shareholder of the Iceland Sustainable Fisheries ehf. and/or its registered certificate sharing entities subject to conditions specified in respective sharing agreements.

Chain of custody will commence as of the first point of sale and/or first processing after landing. Auctions that may or may not take possession of the fish and merely serve as facilitators of trade do not need chain of custody certification. Auctions that are not members of the client group and that either take ownership of the fish, as well as auction houses that engage in processing of the fish after landing, e.g. by gutting or otherwise, must have chain of custody certification.

Operators who do not share the certificate but who take ownership of the fish after landing and before it is sold to certificate sharers are required to hold MSC Chain of Custody certification. Subcontractors, who do not take ownership of the catch but are involved in the handling of the fish after landing, are required either to be holders of MSC Chain of Custody certification or to be listed as subcontractors on the scope of another MSC Chain of Custody certificate holder.

Client Group and Eligible Vessels

List of the members of the Client Group and certificate sharers for this fishery is available on MSC's website (<https://fisheries.msc.org/en/fisheries/isf-iceland-golden-redfish-blue-ling-and-tusk/@assessments>) as well as on the Client's website (<http://www.isf.is>). A list of vessels with valid licenses for fishing within the Icelandic EEZ is available from the Fisheries Directorate upon request (<http://www.fiskistofa.is>).
