Irikla Reservoir Perch Fishery

Stakeholder Announcement

October 7, 2022

This announcement is to inform stakeholders that the annual surveillance audit for the Irikla reservoir perch fishery will be held later than the certificate anniversary date of October 6, 2022. Due to scheduling and availability, the client representative and assessment team have elected to delay the surveillance audit. Stakeholders will be notified when the surveillance has been scheduled.

The MSC Fisheries Certification Process v2.2 7.28.8 states *“The CAB shall undertake surveillance audits within 30 days prior to the anniversary date of the certificate unless the following applies.*

7.28.8.1 The CAB may elect to undertake the surveillance audits up to 6 months earlier or later than the anniversary date, where this deviation is appropriate given the circumstances of the fishery.

a. The CAB shall detail the reasons for deviating from the anniversary date as part of the surveillance schedule.”

Critical guidance G7.28.8.1 states *“If the next surveillance is proposed to be held later than the certificate anniversary date, the CAB should inform the stakeholders before the anniversary date so that they are aware of the revised timing.”*

More information about the fishery including relevant documents can be found here:

<https://fisheries.msc.org/en/fisheries/irikla-reservoir-perch-and-pikeperch-fishery/@@view>

Stakeholders will be notified when the surveillance audit has been scheduled.
