Japanese Pole and Line skipjack and albacore tuna fishery

Marine Stewardship Council Certification

Certification Body: LRQA

Notification Public Certification Report

LRQA have received no notice of objection during the 15-working day time period required for comment on the Final Draft Report.

Therefore, LRQA are delighted to announce the release of the Public Certification Report for the Japanese Pole and Line skipjack and albacore tuna fishery and, subject to successful outcomes from surveillance audits, the fishery is re-certified under the MSC requirements for Sustainable Fisheries from the date of certification and for five (5) calendar years following this date.

Following completion of this final consultation period the fishery is able to use the MSC's logo on all products defined within the Public Certification Report for the specified units of certification for this assessment.

LRQA would like to express our thanks to all individual and organisational stakeholders who participated throughout this assessment process.

Ylva Longva
Interim Fisheries Manager
