

Faroe Islands North East Arctic cold water prawn fishery

Marine Stewardship Council Certification

Certification Body: DNV Business Assurance

Confirmation of intent to use default Assessment Tree and Scoring Guideposts

DNV's assessment team confirms that the default assessment tree contained within the MSC Fishery Certification Requirements version 1.2 issued 10 January 2012, will be used in the independent evaluation of the Faroe Islands North East Arctic cold water prawn fishery.

The scope of full-assessment will cover Faroe Islands North East Arctic cold water prawn (*Pandalus Borealis*) fishery in ICES I and II using bottom trawl as harvesting method.

Information regarding the default assessment tree can be found at (See Annex CB: Default Tree – Normative):

<http://www.msc.org/documents/scheme-documents/msc-scheme-requirements/msc-certification-requirements-v1.2/view>

Additional guidance could be provided on request from either MSC or DNV.
