

## Falkland Islands Toothfish Longline Fishery

### Surveillance Audit: 19<sup>th</sup> March 2015 London, UK

Following certification of this fishery, we are now continuing the process of annual surveillance audits of the fishery. These audits have two principal functions:

1. To review any changes in the management of the fishery, including regulations, key management or scientific staff, or stock evaluation
2. To evaluate the progress of the fishery against any Conditions of Certification raised during the Main Assessment

During the audit, or at separate meetings, we shall be speaking with representatives of the fishery and fishery management organisations. We expect to carry out meetings on the **19<sup>th</sup> March 2015**.

Meetings will be held in **London** and attended by Audit Team members as below. The assessment team membership is the same as the original audit team.

<b>Jim Andrews</b>	<b>Lead Auditor, Principle 2, Principle 3</b>	<b>On site</b>
<b>Andrew Hough</b>	<b>Principle 2</b>	<b>On site</b>
<b>Paul Medley</b>	<b>Principle 1</b>	<b>Off site</b>

Should you have any information on this fishery that you feel should be considered in the audit, please contact us. We would request that all written submissions are made on or before **1700 BST on the 17<sup>th</sup> March 2015**, and include:

- a) your name and contact details
- b) your association with the fishery
- c) the issues you would like to discuss (in order for us to arrange appropriate representation)

Intertek Fisheries Certification notifies identified stakeholders directly through email. If you know of anyone who may be interested in this notification please forward to them and notify us so we may add them to our list of stakeholders. It should be noted that because email is not a foolproof way of transmitting notifications, we ask that stakeholders also subscribe to the free notification service provided by the MSC [here](#).

If you wish to provide comment at any stage of the assessment process the MSC have provided a template for stakeholders to complete and submit their comments. This can be downloaded [here](#).
