UNITS OF CERTIFICATION

Definition: Target stock(s) combined with the fishing method/gear and practice (including vessel type/s) pursuing that stock, and any fleets, or groups of vessels, or individual fishing operators that are covered by the MSC fishery certificate. Note that other eligible fishers may also be included in some Units of Assessment but not initially certified (until covered by a certificate sharing arrangement).

UoC 1

Species:	European plaice (<i>Pleuronectes platessa</i>)
Geographical area:	North Sea – ICES Subarea IV – including territorial waters of the EU and Norway
Method of capture:	Setnets (Trammel & Gill net)
Stock:	North Sea Plaice in ICES Subarea IV
Management System:	Danish Fishermen's Producers Organisation (DFPO)
Client Group:	DFPO member vessels fishing for North Sea plaice.
Other Eligible Fishers:	Danish and Swedish registered vessels targeting the North Sea plaice stock which are not currently members of the DFPO

The Client Group is to be interpreted in strict accordance with operational practices defined in the Public Certification Report for this fishery, in particular the DFPO Code of Conduct defined in section 2.2. This applies to all Units of Certification.

THE POINT(S) AT WHICH FISH AND FISH PRODUCTS MAY ENTER A CHAIN OF CUSTODY

The limit of identification of landings from this fishery is to the point of landing, whereupon fish and fish products may enter chains of custody.

Although landings are mostly into Danish ports, certified vessels may also land into other EU countries. Plaice covered by this certificate may only be landed to Danish registered ports, or other registered ports in Norway, or EU countries of the UK or the Netherlands. Within these restrictions, there is no requirement for the vessels to land at ports named in the Public Certification Report.

Only North Sea plaice caught by Danish registered vessels in the manner defined in the Unit of Certification shall be eligible to enter the chain of custody, and only where fish is landed to a MSC Chain of Custody certified business. Any bycatch species caught by the vessels covered by this certificate are not eligible to enter the chain of custody. Chain of Custody should commence following the first point of landing at which point the product shall be eligible to carry the MSC logo

THE PARTIES, OR CATEGORIES OF PARTIES, THAT ARE ENTITLED TO USE THIS CERTIFICATE TO ENTER FISH FROM THE CERTIFIED FISHERY INTO CERTIFIED CHAINS OF CUSTODY
