

**Lake Hjälmaren Pikeperch Trap Fishery
Lake Hjälmaren Pikeperch Gill Net Fishery**

**MSC Certification
Certification Body: Intertek Moody Marine**

Surveillance Audit

Following certification of this fishery, we are now continuing the process of annual surveillance audits of the fishery. These audits have two principal functions:

1. To review any changes in the management of the fishery, including regulations, key management or scientific staff, or stock evaluation
2. To evaluate the progress of the fishery against any Conditions of Certification raised during the Main Assessment

During the audit, or at separate meetings, we shall be speaking with representatives of the fishery and fishery management organisations. We expect to carry out meetings between 30th June-4th July 2011 in Stockholm and Orebro.

Should you have any information on this fishery that you feel should be considered in the assessment, please advise us. We may be available to meet with stakeholders as appropriate. If you would like to arrange a meeting, please advise us of:

- a) your name and contact details
- b) your association with the fishery
- c) the issues you would like to discuss (in order for us to arrange appropriate representation)
- d) where and when you would like to meet

Yours

Seran Davies
Lead Assessor

26th May 2011
