

**PT Citraraja Ampat, Sorong pole and line Skipjack and Yellowfin  
Tuna**

**Marine Stewardship Council Certification**

**Certification Body: DNV GL Business Assurance Norway AS**

**Notification of Proposed Peer Reviewers**

DNV GL Business Assurance (DNV GL) announces the proposed Peer Reviewers for the full-assessment of the **PT Citraraja Ampat, Sorong pole and line Skipjack and Yellowfin Tuna fishery**.

Potential peer reviewers have been approached on the basis of their experience of one or more of the following:

- the fishery under assessment
- fishery management
- stock assessment issues
- relevant ecosystem interactions

Brief details of each reviewer are provided below. All stakeholders (including the applicant fishery) are now given the opportunity to state any comments/objections to the selection of a proposed peer reviewer specifying the basis of any conflicts of interest and accompanied by a statement of objection.

We would, however, ask for any comments/objections by **5 PM GMT on 17<sup>th</sup> of June 2018**.

Please use the "MSC template for stakeholder input v2" for submission of your comments. The template can be downloaded from the MSC website:

## **Proposed Peer Reviewers**

### **Bert Keus**

Bert Keus is an independent consultant based in Leiden, the Netherlands. He holds degrees in biology and law, and started his career at the Netherlands Institute for Fisheries Investigation (RIVO-DLO). Later he held the position of Head of the Environmental Division of the Dutch Fisheries Board (Productschap Vis). Particular areas of expertise are environmental impact assessments of fisheries in the Natura 2000 framework, fisheries management plans, natural resource policy, and programme and project evaluations.

He has long association with the several fisheries in the Netherlands, and he has been involved in efforts to achieve MSC certification of the North Sea brown shrimp fishery – acting as technical advisor to this multi-stakeholder initiative. Through this work and several other MSC certifications he has become particularly familiar with the MSC certification process. Between the years 1998 and 2003 he was a Member of the European Sustainable Use Specialist Group (ESUSG), Fisheries Working Group of IUCN.

He passed MSC Fisheries team member training course for CR 2.0. He has no conflicts of interest in relation to the fishery under assessment.

### **Giuseppe Scarcella**

Participated in projects since 2000 regarding the management and assessment of fisheries resources, the monitoring of artificial reefs and the evaluation of the environmental impact of off-shore gas platforms. He worked as a researcher on board research and fishing vessels as well as at landing sites to perform a wide variety of technical and supervisory studies. He was responsible for setting up the experimental designs and carrying out the statistical analyses of different research projects. He participated in the sampling activity and in the drawing up of the reports and of the related scientific papers. Moreover he actively participates in the development of fishery management plans and the evaluation of socio-economic impact, related both to fishing activities and the deployment of artificial structures for anti-trawling and fish restocking. He also participates, within the framework of the EU-STEFC expert groups and FAO-GFCM working groups, in the stock assessment analyses for different species in different GSAs of Mediterranean Sea, in the discussion of the methodologies to be used and in the drawing up of the reports. Finally he is participating at the experimental trawl survey Medits, conducted in GSA 25 (Cyprus) within the Data Collection Framework (DCF) in compliance with the Regulations of the European Council.

He passed MSC Fisheries team member training course for CR 2.0. He has no conflicts of interest in relation to the fishery under assessment.
