Gulf of Alaska (GoA) Pacific Cod Fisheries (Trawl, Longline, Jig, Pot)
Marine Stewardship Council Certification**

Certification Body: Moody Marine Ltd

Stakeholder Consultation: Performance Indicators and Scoring Guideposts

We are now entering the next stage of the assessment of this fishery against the MSC *Principles and Criteria for Sustainable Fishing*. The assessment team has now prepared draft Performance Indicators and Scoring Guideposts which we will use to evaluate this fishery against the MSC Principles and Criteria.

We welcome any comments on the appropriateness of these Indicators and/or Guideposts in relation to this fishery.

Your comments are welcomed, in the first instance, up until 19th May 2008. We would also be available to discuss these during any future meetings.

Should you wish to obtain further information on the Marine Stewardship Council, this is available on their web site at <http://www.msc.org>. As a certification body, Moody Marine Ltd has dispute resolution procedures available should these prove necessary.

Yours

Paul Knapman
Assessor
