

Marine Stewardship Council (MSC) Certification

Notification of Change to Timeline

SAI Global Assurance Services is undertaking the full MSC certification assessment process for the following fishery:

Canada 3LN Redfish Fishery

A revised timeline for completion of the assessment is hereby submitted.

This replaces the timeline published on 8th December 2015.

Deviation from that timeline is due to a delay in the assessment. The delay has been in order to allow time for the assessment team to obtain and interpret further information required to evaluate and score performance indicators for Principles 1.

As a consequence of this revised timeline, the revised target eligibility date for this fishery is January 2016.

Comments or questions should be sent to:
