

**MSC Assessment**  
**PNA Western and Central Pacific skipjack tuna (*Katsuwonus pelamis*) unassociated  
and log set purse seine Fisheries**

**Appendix to the notification**

Clarification has been sought in respect to the following definitions:

**Species:** The P1 species identified for assessment are skipjack tuna. Yellowfin tuna, Big eye tuna are defined as retained species, and are therefore considered under P2 of the Fisheries Assessment Methodology.

**The geographical boundaries for Certification:** The EEZs of the PNA countries. Archipelagic waters and the high seas are excluded from the assessment.

**A log set:** Defined as a natural object, where no artificial attachment has been added. Artificial attachments include buoys, bamboo rafts, lights, beacons and nets.
