

**Lake Hjälmarén Pikeperch Trap Fishery  
Lake Hjälmarén Pikeperch Gill Net Fishery  
MSC Certification**

**Certification Body: Intertek Moody Marine**

**Notification of Proposed Peer Reviewers**

A Peer Review panel has been proposed for this fishery. Potential peer reviewers have been approached on the basis of their experience of one or more of the following; the fishery under assessment, fishery management, stock assessment issues and relevant ecosystem interactions.

Brief details of each reviewer are provided below (in alphabetical order). All stakeholders (including the applicant fishery) are now given the opportunity to state any objections to the selection of a proposed member of the peer review panel, on the basis of any conflicts of interest, accompanied by a statement on the basis of any objection.

If you wish to provide comment at any stage of the assessment process the MSC have provided a template for stakeholders to complete and submit their comments. This can be downloaded from the following link:

<http://www.msc.org/documents/scheme-documents/forms-and-templates/msc-template-for-stakeholder-input-into-fishery-assessments/view>

Comments on the suitability of any of the persons listed below should be forwarded, **before 9<sup>th</sup> January 2012**, to **Seran Davies** at Intertek Moody Marine as follows:

**Seran Davies**

**Proposed Peer Reviewers:**

**1. Andrew Gill.** Andrew Gill is an academic member of staff at Cranfield University, UK, and has over 15 years experience as an aquatic ecologist with a particular interest in the fish and fisheries ecology and links with human activity. His currently projects include: feeding ecology of freshwater fish; the effects of global climate change on freshwater fish reproduction and the subsequent consequences for fisheries management; river restoration for fisheries. Much of his work has been with government agencies and environmental management bodies on projects concerned with human impact on ecosystems.

**2. Tim Huntington.** Tim Huntington is a UK-based consultant specialising in fisheries, aquaculture and the aquatic environment. He has over twenty years experience in aquaculture and fisheries as a fisheries biologist. He has designed, managed and directed coastal, marine and freshwater resource management projects in Europe and many other countries worldwide and is an environmental impact assessment specialist with wide-ranging experience of fisheries and aquaculture development world-wide. He has extensive experience in fisheries, aquaculture and 'chain of custody' certification.
