## **ISF Iceland Cod – Re-assessment**

MSC Fisheries Certification Requirements

Conformity Assessment Body: Vottunarstofan Tún ehf.

### **Public Certification Report**

Following a 15-days consultation period of the Final Report and Determination on the re-assessment of the ISF Iceland Cod fishery against the MSC Fisheries Certification Requirements, Vottunarstofan Tún confirms that notices of objection were not received during that period.

Vottunarstofan Tún is pleased to announce the release of the Public Certification Report for this fishery. The ISF Iceland cod fishery is now certified to the MSC Fisheries Standard from the date of the publication of this report for five calendar years, subject to successful outcome of surveillance audits.

The ISF Iceland cod fishery can now use the MSC ecolabel on products from the units of certification specified in the Public Certification Report.

The Public Certification Report and other documents pertaining to the re-assessment are available on MSC's website: <https://fisheries.msc.org/en/fisheries/isf-iceland-cod/@assessments>.

Vottunarstofan Tún would like to thank all those who contributed to the re-assessment of this fishery.
