Zarya-Kolpakovsky Sobolevo salmon fisheries

Stakeholder Notification—additional information gathering stage

Due to the MSC Fishery Certification Process V2.1 7.20.1, which requires publication of the Public Comment Draft Report within a specified timeframe, MRAG Americas announces an additional information gathering stage. The information gathering stage provides stakeholders with an additional 30-day opportunity to submit new information for consideration by the Assessment Team. Stakeholders are asked to submit any new, relevant information for this fishery during the consultation period, beginning 25 February 2020, and ending 26 March 2020.

The MSC has developed a guide for stakeholder input, available at <https://www.msc.org/what-you-can-do/engage-with-a-fishery-assessment> and a template for stakeholder response available at [MSC Template for Stakeholder Input into Fishery Assessments v3.0](#). You may use the template or provide your response in any other format. Any new information must be submitted before 5pm UTC, **26 March 2020**.

Additional information regarding the fishery can be found at:
<https://fisheries.msc.org/en/fisheries/zarya-kolpakovsky-sobolevo-salmon-fisheries/@@view>.
