SGS is pleased to announce the site visit for below fishery assessment:

Species:	Dutch Blue Shell Mussel (<i>Mytilus edulis</i>) Fishery and Culture.
Location:	Waddenzee and Zeeuwse delta.
Fishing methods:	Dredge and suspended seed mussel collectors, culture. Catch and grow.

The site visit is scheduled to take place in Yerseke, Netherlands from 17 to 21 May 2010, 18 and 19 May are reserved for stakeholder consultation.

Stakeholder participation is a main requirement of MSC fishery certification. Should you have any information on this fishery that you feel should be considered in the assessment, please advise us.

If you would like to discuss your information with the assessment team in person during the site visit, send us no later than 16 May:

- your name and contact details
- your association with the fishery
- the issues you would like to discuss

We will contact you with date, time and venue of the meeting.

SGS Nederland BV, Product and Process Certification will act as coordinating office and is accredited to perform MSC Fishery certifications.
