MARINE STEWARDSHIP COUNCIL CERTIFICATION

Sea of Okhotsk crab trap

Announcement of Public Certification Report

27 June 2022

UCSL United Certification Systems Limited announces the release of second (revised) version of the Public Certification Report for Sea of Okhotsk crab trap which was revised according to the ASI MSC Fisheries Desk Review (Assessment no. A-20220145992).

UCSL confirms that Sea of Okhotsk crab trap is now certified as a well-managed and sustainable fishery against the MSC Fishery Standard for 5 years, subject to successful completion of annual surveillance audits. The Public Certification Report for this fishery is available on the MSC website at: <https://fisheries.msc.org/en/fisheries/sea-of-okhotsk-crab-trap/@@view>

The UCSL would like to express our thanks to all stakeholders who participated during this assessment and would like to congratulate the client group on this achievement.

More information on the MSC standard for well-managed and sustainable fisheries is available at: <https://www.msc.org>
