RE-ASSESSMENT OF THE COMMERCIAL ALASKA SALMON FISHERIES For Compliance with Marine Stewardship Council Standards

We are pleased to announce that Alaska Department of Fish & Game decided to move forward for a 5-year re-assessment under the MSC fishery certification program of the commercial Alaska salmon fisheries. As before, the assessment will evaluate the fisheries for compliance with the MSC's Standard for well-managed and sustainable fisheries. This includes inquiries into the status of stocks, the effects of fishing on the ecosystem, and the comprehensiveness and robustness of the management system. The certification body contracted to assess this fishery is Scientific Certification Systems, Inc., Emeryville, California, USA.
