UNITS OF CERTIFICATION

Definition: Target stock(s) combined with the fishing method/gear and practice (including vessel type/s) pursuing that stock, and any fleets, or groups of vessels, or individual fishing operators that are covered by the MSC fishery certificate. Note that other eligible fishers may also be included in some Units of Assessment but not initially certified (until covered by a certificate sharing arrangement).

UoC 1

Species:	Cod (<i>Gadus morhua</i>); Danish: Torsk
Geographical area:	ICES Subarea IV (North Sea) and Division IIIa West (Skagerrak)
Method of capture:	Demersal Trawl (including both otter trawl and fly shooting)
Stock:	North Sea, Skagerrak and Eastern English Channel cod
Management System:	Danish Fishermen's Producers Organisation (DFPO)
Client Group:	DFPO member vessels fishing for North Sea cod

Other Eligible Fishers:	Danish and Swedish registered vessels fishing for cod which are not currently members of the DFPO
-------------------------	---

UoC 2

Species:	Cod (<i>Gadus morhua</i>); Danish: Torsk
Geographical area:	ICES Subarea IV (North Sea) and Division IIIa West (Skagerrak)
Method of capture:	Setnets (Trammel net & Gill net)
Stock:	North Sea, Skagerrak and Eastern English Channel cod
Management System:	Danish Fishermen's Producers Organisation (DFPO)
Client Group:	DFPO member vessels fishing for North Sea cod

Other Eligible Fishers:	Danish and Swedish registered vessels fishing for cod which are not currently members of the DFPO
-------------------------	---

Register

UoC 3

Species:	Cod (<i>Gadus morhua</i>); Danish: Torsk
Geographical area:	ICES Subarea IV (North Sea) and Division IIIa West (Skagerrak)
Method of capture:	Danish seine
Stock:	North Sea, Skagerrak and Eastern English Channel cod
Management System:	Danish Fishermen's Producers Organisation (DFPO)
Client Group:	DFPO member vessels fishing for North Sea cod

Other Eligible Fishers:	Danish and Swedish registered vessels fishing for cod which are not currently members of the DFPO
-------------------------	---

Please note that whilst the Units of Certification detail the full extent of what is being assessed, it is the Public Certification Report (September 2016) that precisely defines the exact nature of certification for this fishery. This scope extension report has to be read in conjunction with the already certified DFPO Saithe report (February 2011).

THE POINT(S) AT WHICH FISH AND FISH PRODUCTS MAY ENTER A CHAIN OF CUSTODY

The limit of identification of landings from this fishery is to the point of landing, whereupon fish and fish products may enter chains of custody.

Although landings are mostly into Danish ports, certified vessels may also land into other EU countries. There are no restrictions defining port of landing, over and above those stated in national fishing regulations.

Only North Sea and Skagerrak cod caught by Danish and Swedish registered vessels in the manner defined in the Units of Certification shall be eligible to enter the chain of custody, and only where fish is landed to a MSC Chain of Custody certified business. Chain of Custody should commence following the first point of landing at which point the product shall be eligible to carry the MSC logo.

THE PARTIES, OR CATEGORIES OF PARTIES, THAT ARE ENTITLED TO USE THIS CERTIFICATE TO ENTER FISH FROM THE CERTIFIED FISHERY INTO CERTIFIED CHAINS OF CUSTODY

The client group is DFPO member vessels fishing for North Sea cod. This is to be interpreted in strict accordance with operational practices defined in the Public Certification Report, in particular the DFPO Code of Conduct defined in section 2.2 of the Saithe report.

A register of eligible vessels will be maintained at the Danish MSC Fisheries website.
