Stakeholder Notification

Amendments to the Traceability section of the Public Certification Report

SAI Global wishes to inform that some of the information provided in the Traceability section **8.3 Eligibility to Enter Further Chains of Custody** (p. 62-63) of the Public Certification Report published on October 10, 2017 is not correct. The following amendments must be considered.

1) The following text is deleted.

"There are a total of 27 registered snow crab production plants in New Brunswick. Producers on Prince Edward Island (PEI) are represented by the Prince Edward Island Seafood Processors Association. Quebec producers (17) are represented by Association of Quebec Seafood Producers (AQIP). These plants are currently not represented by ASPANS and are therefore not part of the Fishery Certificate."

2) Table 29 listing the client group members is replaced by the Table below which is the most-up-to-date client group listing.
