

Intertek Fisheries Certification (IFC)

**Zhangzidao Scallop (*Patinopecten yessoensis*) Fishery,
North Yellow Sea China**

MSC Certification Assessment

Certification Body: Intertek Fisheries Certification

Stakeholder Notification: Assessment Timeline Deviation

Please be advised that the above fishery has deviated from the last revised timeline notification. The change in timeline has been caused by us taking account of stakeholder comments following the 30 day public consultation period.

The indicative timeline for the remainder of the steps in the assessment process are:

Remaining Steps in the Assessment Process	March 2015
Final Draft Report consultation	
Certification	

The target eligibility date for the fishery is the certification date.

As well as using the MSC website to notify stakeholders Intertek Fisheries Certification notifies identified stakeholders directly through email. If you know of anyone who may be interested in this notification please forward to them and notify us so we may add them to our list of stakeholders. It should be noted that because email is not a fool-proof way of transmitting notifications, we ask that stakeholders also subscribe to the free notification service provided by the MSC at: <http://www.msc.org/newsroom/updates/subscribe>

If you wish to provide comment at any stage of the assessment process the MSC have provided a template for stakeholders to complete and submit their comments. This can be downloaded from the following link:

<http://www.msc.org/documents/scheme-documents/forms-and-templates/msc-template-for-stakeholder-input-into-fishery-assessments/view>

Should you wish to obtain further information on the Marine Stewardship Council, this is available on their web site at <http://www.msc.org>. As a certification body, Intertek Fisheries Certification has dispute resolution procedures available should these prove necessary.
