

Marine Stewardship Council Fishery Certification

Fishery:

Chilean mussel fishery and suspended culture Toralla S.A. and Cultivos Toralla S.A.,
Región X, Chile

Certification Body:

Institut für Marktökologie, IMO

Confirmation of Assessment Tree

IMO is pleased to confirm the use of the Modified Default Assessment Tree for Enhanced Bivalve Fisheries for the assessment of the above mentioned fishery.

Principle 1 will be scored by using the risk based framework (RBF) on all seed sources. The retained and by-catch PIs of principle 2 will not be scored.

Please find the assessment tree in the MSC Certification Requirements version 1.2 (Annex CK) and in the figure below.

Best regards
to all interested persons.

Institut für Marktökologie, IMO
